

Please join us at a rally/press conference for educational equity

for the children who attend
4410 special education preschools and
853 special education schools for 5-21 year olds

This year school districts got a much needed funding increase of over 7%.
The State Education Department recommended that our schools receive 7%
as well but the Division of Budget only authorized 4%.
This, after a history of underfunding that has led to the closure of many of our
schools, displacing their students and families.

Is this equality?

4% ≠ 7%
